A-7000 / A-8000 SERIES

SAFE AND ACCURATE

A-7000 / A-8000 – WET SUCTION / WET SEAL

The Pleur-evac® Wet Suction Series has been the industry standard since its introduction in 1967. Wet suction models are safe and accurate. The A-7000 series offers a patented patient air leak meter to quantify the patient air leak, needleless tubing connectors for collection sampling and is available with premated or optional ATS bags.

SAMPLING/ATS OPTION
(only available on 7000 series)

- *Self-sealing sample port requires no needles*

SAFETY

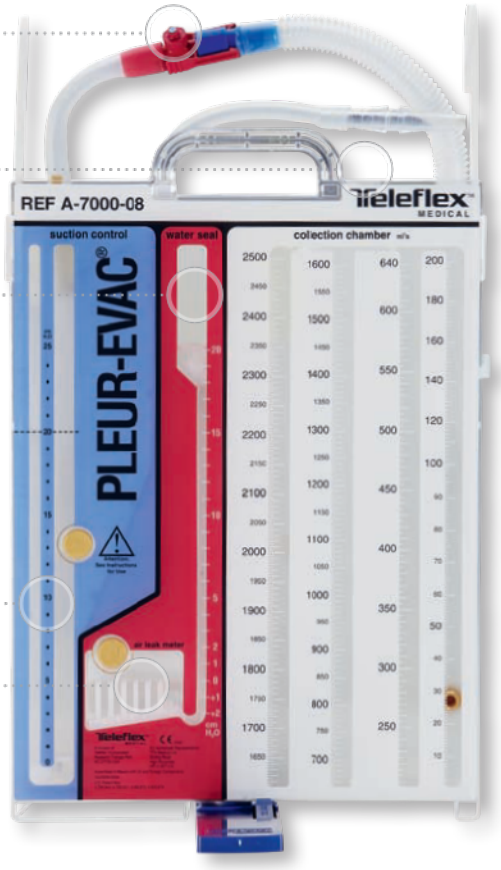
- ***Positive Pressure Relief Valve** opens with increases in positive pressure, preventing pressure accumulation*
- ***High Negativity Relief Valve** permits manual filtered venting of excessive negative pressure*
- ***High Negativity Float Valve** prevents excessive negative pressure build up*

SUCTION CONTROL

- *Water controlled suction columns provide safe suction levels*

DIAGNOSTICS

- *Air Leak Meter visually quantities the size and progress of air leak*



WET SUCTION / WET SEAL
